This public meeting is meant to:
• Inform the community about what Grass Valley residents and businesses have gained from former and current Brownfields projects
• Identify potential participants for the 2013 Assessment Grant (nonresidential business owners in the City of Grass Valley’s targeted reinvestment areas)
• Offer ways for the public to get involved

What is a Brownfield?
• A Brownfields site is a property that may have the real or perceived presence of a hazardous substance, pollutant or contaminant which can complicate the development or reuse of the property.
