

CITY OF GRASS VALLEY  
125 E. Main Street Grass Valley, California 95945  
(530) 274-4330

## USE PERMIT

Attached are the filing forms and instructions for submitting a complete use permit application. All forms must be completely filled out and submitted with any necessary supporting information. This packet includes the following forms (item numbers 1 and 2) and information sheets (item numbers 3 and 4):

1. Application Form
2. Supplemental Application Information Form
3. Site Plan and Map Preparation Instructions
4. Fish and Game Advisory Notice

Upon receipt of the **completed forms, site plan/maps, and filing fees**, the Community Development Department will determine the completeness of the application. This review will be completed as soon as possible, but within thirty (30) days of the submittal of the application. If the application is determined to be complete, the City will begin an environmental review, circulate the project for review by agencies and staff, and then schedule the application for a hearing before the Planning Commission.

If sufficient information **has not** been submitted to adequately process your application, you will receive a notice that your application is incomplete along with instructions on how to complete the application. Once the City receives the additional information or revised application, the thirty (30) day review period will begin again.

Approximately five (5) days prior to the Planning Commission meeting, the Community Development Department will provide you with a staff report which will include an analysis of the project along with comments from other agencies or departments. The staff report will usually contain a recommendation for approval, conditional approval, or denial.

Since the information contained in your application is used to evaluate the project and in the preparation of the staff report, it is important that you provide complete and accurate data. Please review and respond to each question. If a response is not applicable, N/A should be used in the space provided. Failure to provide adequate information could delay the processing of your application.

## **ADVISORY RE: FISH AND GAME FEE REQUIREMENT**

Permit applicants are advised that pursuant to Section 711.4 of the Fish and Game Code a fee of **\$2,792.25** for an Environmental Impact Report and **\$2,010.25** for a Negative Declaration\* shall be paid to the County Recorder at the time of recording the Notice of Determination for this project. This fee is required for Notices of Determination recorded after January 1, 1991. A Notice of Determination cannot be filed and any approval of the project shall not be operative, vested, or final until the required fee is paid. This shall mean that building, public works and other development permits cannot be approved until this fee is paid. **This fee increases January 1<sup>st</sup> of each year.**

This fee is **not** a Grass Valley fee, it is required to be collected by the County pursuant to State law for transmission to the Department of Fish and Game. This fee was enacted by the State Legislature in September 1990, to be effective January 1, 1991.

\*If the City finds that the project will not have an impact on wildlife resources, through a De Minimus Impact Finding, the City will issue certificate of fee exemption. Therefore, this fee will not be required to be paid at the time an applicant files the Notice of Determination with the County Recorder. The County's posting and filing fees will still be required.
