## 5.2 Public & Agency Outreach Meetings

The City of Grass Valley conducted three meetings to introduce the proposed project and provide interested members of the public as well as government agencies the opportunities to comment, by letter, issues/concerns that should be evaluated in the environmental review process. The details of these meetings are provide below:

<u>Date/Time/Location</u>	<u>Purpose</u>	<u>Forum</u>
January 25, 2006 2:00 p.m. to 4:00 p.m. & 6:00 p.m. to 8:00 p.m.  Veterans Memorial Hall, 255 South Auburn Street, Grass Valley, CA	The purpose of these two workshops was to solicit public comments on the potential impacts and benefits of the proposed reopening of the Idaho-Maryland Mine. These were issue identification workshops to help the City identify public issues that should be considered for evaluation as part of the environmental review process.	City staff and the City's environmental consultant provided a brief presentation of the proposed project and described the City's three-phased approach for assessing the environmental issues. After the presentation, the City's consultants were available at several breakout tables to discuss specific topics or issues of interest. Comment forms were available that could be filled out at the meeting or submitted to the City after the meeting.
