

# **2025 California Historical Code Significant Changes**

## **Summary**

There were no significant updates to the 2025 California Historical Building Code, Part 8 of Title 24, or Part 12, the Referenced Standards Code. There are no changes to Part 8 because the State Historical Building Safety Board adopted the 2025 California Historical Building Code by carrying forward existing provisions from the 2022 edition without further amendment.
